

# 1.1 Proceedings Instructions/Information for Authors

## Publication of the Proceedings of the Third International Conference on Synchrotron Radiation in Materials Science (SRMS-3)

### BEAM INTERACTIONS WITH MATERIALS AND ATOMS

#### Section B of Nuclear Instruments and Methods in Physics Research

**Submission:** Contributions must be submitted in **duplicate** by **25 January, 2002** at the registration desk. The manuscript must be in English of an adequate quality. One set of good quality original figures and a set of copies must be submitted with the manuscript. Please submit also an electronic version of your contribution on disk. Accepted papers will be published in Nuclear Instruments and Methods B. Page proofs will be sent to the contact author. Note that revisions in proof are not possible. It is the authors' responsibility that the accepted paper is correct in every respect.

**Preparation of manuscripts:** Hardcopies of manuscripts should be printed throughout with double line spacing and wide margins on numbered, single-column pages.

*Title page(s)* should contain the reference number as mentioned in the book of abstracts, the title, authors' names and affiliations, the abstract, PACS codes and keywords, and the text of any related footnotes. The author to whom proofs should be sent must be indicated with his/her full postal address, fax number, telephone number and/or e-mail address.

*Hardcopies of tables* should be printed on separate sheets at the end of the manuscript, be numbered and have a sufficiently detailed caption.

*Figures* should be numbered and their captions listed together at the end of the manuscript. Do not import figure files into the text file.

*References* in the text to other publications should be numbered consecutively, e.g. [1], [2,3], [4-6], etc., and listed together at the end of the text. In order to prohibit problems with electronic linking to referred publications, please do not group more than one reference under one number; and do not put non-reference information (such as footnotes) in the reference list. Examples of references:

[1] G.V. Kornich, G. Betz, A.I. Bazhin, Nucl. Instr. and Meth. B 152 (1999) 437.

[2] R.S. Averback, T. Diaz de la Rubia, in: H. Ehrenfest, F. Spaepen (Eds.), Solid State Physics, Vol. 50, Academic Press, New York, 1998, p. 281.

[3] W. Bolse, in: Proc. 11th Int. Conf. on Ion Beam Modification of Materials, Amsterdam, The Netherlands 1998, Nucl. Instr. and Meth. B 148 (1999) 83.

**Preparation of figures:** Authors are invited to submit electronic graphics, but the publisher requires in all cases also a set of good quality original hardcopies of all illustrations.

*Electronic graphics:* Please refer to [www.elsevier.com/locate/authorartwork](http://www.elsevier.com/locate/authorartwork)

*Hardcopies:* Take care that the essential information is well visible after reduction to the final printed size. Avoid the use of a continuous grey wash. The top side of an illustration should be marked if necessary. Photographs should not already be screened.

*Colour figures* can be printed in colour when this is essential to the presentation. Authors will be charged for colour reproduction. If to be published in black-and-white, computer-generated graphics should be produced in grey scale.

#### **Length of the printed paper:**

**Invited papers max. 5 printed pages**

**Contributed papers max. 4 printed pages**

Authors are requested to use one of the formulae below to estimate the length of their paper in print. Papers exceeding the limits may be rejected.

---

#### *Method I, page count:*

Total number of manuscript pages,

typed with double line spacing ..... (=A)

Number of one-column tables ..... (=I)

Number of figure panels ..... (=J)

Estimated number of printed pages:  
 $0.4A+0.25(I+J)$  .....

#### *Method II, word count:*

Total number of words,

in the whole document ..... (=N)

Number of figure panels ..... (=J)

Estimated number of printed pages:  
 $N/550+0.25HJ$  .....

---

**Correspondence with the publisher:** After acceptance for publication in the proceedings of an article, any correspondence should be addressed to: NIM-B Issue management, Elsevier Science B.V., P.O. Box 2759, 1000 CT Amsterdam, The Netherlands. Telephone: (+31-20) 485 2492, Fax: (+31-20) 485 2431, e-mail: [nimb-j@elsevier.nl](mailto:nimb-j@elsevier.nl) Offprint order/copyright transfer forms and page proofs will be sent to the corresponding author. 25 offprints are provided free.
